THERSDAY, : : : : : : : June 22, 1865

We last week subscribed for a work admir ably adapted to its purpose, viz, Gunn's New Family Physician, or Home Book of Health. It is a large octavo of over 1200, pages and gives the causes, symptoms, and treatment of lisease in a style so plain as to place the work in advance of anything we possess on the four children to mourn her loss. Happy are the sulfact. We presume it will be fiercely assailed by quacks who like the ancient Demetrius find "our craft" in danger, but no doctor of note will object to it on that ground

That a portion at least of our enrings is swallbwed up by numerous calls of the family tloctor, none will deny, and our most eminent physicians admit that their services might be dispensed with nine times out of ten, if people were better informed on such subjects.—
There is more slamm and tourfollery about

[25-15] inedicines than any other branch of science and few when they hear the mighty term Ni trate of Potash Aqua Pura (pure water) Chloride of Sodium &c., are aware that they daily use the same thing with other names We are a well doctored race, but Dr. Gunn We sign well doctored race, but Dr. Guinn frankly admits that nature is superior to medicine, and simple remedies better than potent drugs. A careful examination will convince the most prejudiced that the book contains much valuable information that should be within the reach of all. We do not mean that doctors should be discarded, but many of our ancestors lived and died without them and a measurement of the subscitct and at reasonable prices.

To OPERATORS AFTER OFF.

Hills subsciber hereby makes known to the operators after Oil, that he is now prepared, at his manufactory, at Middleport, just below the saw mill, to furnish, on the shortest notice, and in the most approach makes known to the operators after Oil, that he is now prepared, at his manufactory, at Middleport, just below the saw mill, to furnish, on the shortest notice, and in the most approach makes known to the operators after Oil, that he is now prepared, at his manufactory, at Middleport, just below the saw mill, to furnish, on the shortest notice, and in the most approach as well as well as the property of the operators after Oil, that he is now prepared, at his manufactory, at Middleport, just below the saw mill, to furnish, on the shortest notice, and in the most approach as well angesters lived and died without them and a more vigorous race never lived. The work is executed in a style that makes it both a par lor ornament and fireside companion and should have a place in every family.

Oil in Meigs County.

Mr. Epiron -- At your request, I give below a statement with regard to our oil opera-

in the spring of 1851, a first class flowing oil well was struck in boring for salt at the Diamond Salt furnace, near Middleport. Awnre of this fact, A. S. and W. Darrow commenced boring for oil in the same hollow, a short distance above the furnace, about the first of May last, At the depth of 146 feet the first vein of oil was struck. A larger vein was found at the depth of 210 feet, and gas at feet at feet at the depth of 210 feet at feet at feet at feet at the sold to the highest bidder, the following real estate, as the property of fact at feet at fe found at the depth of 210 feet, and gas at 207. feet. After boring to the depth of 300 the premises.

[25-4t] Mer boring to the depth of 300 the premises.

[25-4t] REBECCA CIRCLE, Adm'x of Madison Circle. an and night with little success. On Friday U. S. 7-30 LOAN. the 17th the pump was raised to the 210 vein and has since been pumping oil at the rate of over twenty barrels per day, clearly demonstrating the fact, that Miegs County has deposits of oil in considerable quantities,-There are now ten engines operating for oil in the County. Eight of these are on Thomas' Creek, and two of the wells are over three hundred feet deep. Quite a number of wells are being bored by hand until engines can be supplied, and there is no doubt that before the summer is over, more than twenty engines will be in operation, thoroughly developing the resources of the county.

#### Explosion in a Coal shaft.

Correspondence of the Pittsburg Chronicle. STECHENVILLE, June 6.

A terrible accident occurred in one of the coal pits here yesterday morning, the particulars of which we have from one who wits in the building over the works, when the explosion took place. It appears that the miners had not been working since Wednesday of last week, and the lire in the furnance below, which is always kept there in order to create a circulation of air through the different parts of the mine, had not been attended to for two days; so that the gas had been accumulating days; so that the gas had been accumulating

days; so that the gas and been accumulating during Saturday and Sunday.

Monday morning a man went down and is supposed to have just kindled the fire and started off into one of the entries with a common lamp in his hand, which no sooner came in contact with the man them the fire and county and continuously after that date. in contact with the gas than the fearful result was known above. The noise is described as resembling that made by a train of cars morning at a rapid rate. A shock was felt, which shook the building to its very foundation, and shook the polyweaper up with tremendous the great service. They payment in gold, if made, will it the salest and most valuable remedy of watch it is the salest and watch it is the s in contact with the gas than the fearful result ing at a rapid rate. A shock was felt, which shook the building to its very foundation, and the gas from below came up with tremendous force, bringing along with it a shower of dust, slate, pieces of coal, and piling the underground cars on top of each other; then forcing the whole mass out of the mouth of the shaft, knocking and tearing everything in their way. Nine men who had already gone down to resume their work that morning were buried.

The return to specie payments, in the event of which only will the option to pay interest in gold he availed of, would so reduce and equalize prices that purshases made with six per cent. in gold would be fully equal to those made with 7 3-10ths per cent. in currency. This is

The Only Loan in Market.

The news was rapidly spread, and soon a crowd of citizens and brother workmen were collected at the place of the disaster, eager to do something for the relief of those who might be living, and also to rescue the bodies of those in whom life was extinct. After many attempts and repeated failing, on ac-count of the suffocating odors which affected those who went down, sometimes rendering them insensible, they succeeded yesterday in getting up six of the unfortunate ones. Two of them were already dead, two springs in those who went down, sometimes rendering themeinsensible, they succeeded vesterday in getting up six of the unfortunate ones. Two of them were already dead, two seriously injured, but the other two, strange to say, untit to day—all dead, of course. About three today—all dead, of course today—all dead, o o'clock this afternoon the body of Mr. Cowan, who carried the lamp, was brought up badly bruised and matilated. Some two or three gans of slate had fallen on him, and a part of the case belonging to his watch was found, bearing evidence that the rest of it had prob-

preparations are in progress for commencing work again. The rubbish is being cleared away and

\* \* \* 1 have known Hooffault's German Bitters favorably for a number of years. I have used them in my own family, and have been so pleased with their effects that i was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner. I take great pleasure in this publicly proclaiming this fact, and calling the attention of those affilicted with the diseases for which they are recommended to those Bitters, knowing from experience that my recommendation will be sustained. I do this more cheerfully as Hooffault's Bitters is intended to beinefit the afflicted, and is "not a rum drink."

Yours truly, LEVI G. BECK.
